Press Release

09. June 2015

2nd International RENEXPO® BiH - plans and topics, November 2015 - Sarajevo

First Advisory Board, held on the 04th of June 2015. in Sarajevo, the topics were introduced and strategies defined for the upcoming RENEXPO®BIH 2015 International Energy Trade Fair with accompanying conferences, workshops, B2B meetings and Expert Exchanges, scheduled for 4th and 5th of November 2015.

The first two topics of the fair are **small hydro** and **geothermal** energy potential. Attention is paid to the legal regulations, natural and technical, technological and economic potential.

Small hydropower plants - projects from the region - Bosnia and Herzegovina, Montenegro, Croatia and Albania will be represented within the RENEXPO®BIH Investors-Business-Lounge.

Additionally the countries presents its potential and issues by expert teams, which includes promoting and challenges, the importance of the development, the role of small hydro power plants, ensuring the safety of water infrastructure, increasing the maximum benefit of the existing small hydropower plants with timely renovation and upgrading.

Geothermal - the potential in Bosnia and Herzegovina has been identified and will be presented during and Information-Day by an expert team from Germany and United Kingdom to the municipalities with this potential.

Energy Efficiency: Special attention is focused on direct communication with architects and engineers, who will have the opportunity to be updated about Energy Efficient Materials in Buildings and be invited to B2B-Meetings with the international industry.

RENEXPO® BIH in 2015 has prepared a special program for students - **Meet your future employer**, who will be presented in details at the second meeting of the Advisory Board, scheduled for September 2015.
